Wisconsin's State Energy Office, the Office of Energy Independence, has produced the annual *Wisconsin Energy Statistics* publication since 1976. This publication serves as a foundation for evaluating energy activities and trends in Wisconsin.

In producing this publication, overall leadership and guidance were provided by OEI's Executive Director, Judy Ziewacz. Holly Laux O'Higgins was responsible for natural gas, petroleum and transportation data, U.S. data, renewable energy, and expenditures. She also coordinated production of this publication. Jim Mapp prepared coal data and provided expertise from years of experience working with energy data. O'Higgins and Mapp worked together on electricity and energy efficiency data. The design and layout of this publication was created by Kari Hamann Design in Madison, Wisconsin.

The Wisconsin Office of Energy Independence relies on many organizations, agencies and private businesses for the information needed to compile the statistics in this report. They include the Wisconsin Division of the American Automobile Association, the U.S. Department of Agriculture/National Agriculture Statistics Service, the U.S. Department of Commerce, and the U.S. Department of Energy/Energy Information Administration, Wisconsin's electric and gas utilities and the Public Service Commission of Wisconsin, the Wisconsin Departments of Administration; Agriculture Trade and Consumer Protection; Commerce; Workforce Development; Natural Resources; Revenue; and Transportation. Private businesses that have contributed data toward this publication include airport fixed base operators, Focus on Energy, landfill and wastewater treatment facilities, railroads, schools, and natural gas pipelines.
